Professional Summary

AI-native growth builder with a Computer Science background, combining content strategy, community building, and AI product understanding. Grew an AI/product-focused X account from 0 to **5.3K+ followers and 10.6M views in 4 months**, including a **1.01M-view original post**, while co-building a **1.5K-member hackathon community**. Experienced in turning complex AI concepts and workflows into accessible stories, user-facing products, and measurable growth.

SELECTED EXPERIENCE

Independent Creator, AI Content & Audience Growth — X / Twitter Apr 2026 – Present

- Grew an AI/product-focused account from 0 to **5.3K+ followers and 10.6M** cumulative views in 4 months through original AI workflows, product breakdowns, and practical use-case content.
- Created a GPT Live × Obsidian workflow post that reached **1.01M views, 6.8K bookmarks, 3.5K likes, and 800 reposts** by iterating hooks, long-form structure, and practical storytelling based on audience response.

Co-founder, Linkathon Jul 2026 – Present

- Co-founded a hackathon-focused builder community that grew to nearly **1,500 members across 3 groups**, addressing fragmented event discovery, teammate matching, and peer collaboration.
- Built an AI-assisted discovery and curation workflow across **10+ source types**, combining AI search, human verification, and a structured selection framework to turn fragmented event information into decision-ready recommendations.

Intern, China National Institute for SCO International Exchange and Judicial Cooperation Jun 2026 – Jul 2026

- Proactively initiated and independently produced an English interview with **David Fernandez Puyana, UPEACE Ambassador and Permanent Observer to the UN Office at Geneva**, leading research, question design, interviewing, production, and distribution; the published video reached **10K+ views on X** and was directly reposted by the interviewee.

SELECTED PRODUCT PROJECTS

Project Lead, Que Ding — AI Mahjong Scoring Assistant Apr. 2026

- Built and shipped an AI-powered Mahjong scoring assistant from prototype to Douyin mini-app (**V1→V4**). Rapid user testing drove a key pivot from camera-first recognition to a scoring-first experience.

Project Lead, Help Me Choose — AI Product Recommendation Assistant Mar. 2026

- Built and iterated an explainable Apple purchase decision assistant (**V1→V8.2**) based on external user feedback, improving recommendation logic through user needs, constraints, and product trade-offs.

Education

University of Nottingham Ningbo China (UNNC) Sep. 2025 - Jul. 2027

- M.Sc. in Computer Science

Zhejiang Wanli University, B.Eng. in Cyberspace Security Sep. 2021 - Jun. 2025

- GPA: 3.93/5.0 (Top 5%); Zhejiang Provincial Outstanding Graduate
